Nuria, Denise, and/or Pat:

Could you please send the original name for the site set up during the site assessment. Thanks

I'd be interested to know what name Superfund Division used when doing the pre-score. To avoid confusion internally, we could use that name, and if it is one the public would recognize, so much the better.

We're pulling together a new web page for all the Wolverine-related materials, but not quite sure what to title it ... "Wolverine Groundwater Contamination"? I'm sure the company would prefer not to have their name on it, but that's the way public is thinking of the site.

Thoughts?
